I rely on uber for safe and convenient travel to and from the airport for work. This is a very disappointing decision from the public service council.

**Subject:** Uber

As a male resident of Lexington Co, of voting age I am requesting that uber be allowed to continue operations in SC. We can no longer allow red tape to degrade our choices in our great state. Every single other state has worked with Uber to strike a balance between safety and convenience. Do you think that cab drivers are the safest employee base possible? Absolutely not. Nor is their business model sustainable. Do not be part of the problem sir, be part of the solution, r your actions will not go un noticed come election time.

Sincerely  
Zebulon Proctor

**Subject:** Uber in charleston

Uber is the only taxi company in Charleston that is actively pursuing the wants and needs of the citizens. This customer centered mentality is exactly what charleston is famous for and needs to maintain. The efficiency of Uber also aids the congestion and transportation problem downtown. I am a citizen of Charleston and I stand behind Uber
